

## UNMISTAKABLE SIGNS OF BUSINESS ACTIVITY SHOWS BELIEF IN YEAR'S CROP

Buildings Being Erected in Business Area Shows Confidence in Crop Prospects and Expectation of More Business

## SUBSTANTIAL STRUCTURES ARE BEING BUILT

The evidence of no less than five business houses being erected in the business area of the town points unmistakably to the fact that a bumper crop is expected this fall, and that local merchants intend being prepared for the increased trade which will naturally ensue.

The structure being erected by Messrs. W. B. Crawford & Co. covers a floor space of about four thousand square feet and commands a good location on Main Street, between First and Second Avenues. That being erected by Thos. Blason, adjoining the store of the G. H. Baendry Co., is being advanced rapidly and will be rushed to completion with all haste. When completed, it will form part of a large block to be used by both concerns as a departmental establishment.

Other buildings are also in the course of erection and in this instance the Union Bank at the corner of Main and Third Avenues should not be overlooked. Although it would not appear that the building will cost anything like \$15,000 as was first announced, the structure will be a very substantial one. The first story is now in place and certain material is being awaited before the remainder of the work can be gone on with.

## WILL MUNICIPAL HOSPITAL BE ESTABLISHED HERE?

Real Need of Home for Sick is Keenly Felt Now that Private Hospital is Closed

There is certain reason to believe that the council will view the necessity of a municipal hospital here in a favorable light and that steps will be taken to investigate the workings of such an institution before coming to a final and definite decision.

That a hospital should be established here is an admitted fact. For two years the community has not felt the real need of an institution of this nature because a private hospital was available in time of sickness and accident. With the closing of this, for obvious reasons, the real need of a municipally owned building is seen.

It is to be hoped that the question will be thoroughly investigated by the civic administrators and that the result of such investigation will be followed by the ultimate establishment of a hospital.

On the eve of her recent departure for Edmonton, where she will reside in future, Mrs. George Richardson was made the recipient of several useful gifts from the St. Andrew's Ladies Aid as a recognition of the valuable services she rendered while connected with this church organization.

Canada has over 40 countries and nationalities represented in her population.

## Cutting in Progress North of Edgerton

Mr. P. S. Pansy, of Edgerton, was in town yesterday and while here gave a brief crop report to the Star. He states that several farmers north of that point have begun to cut and that it will be general very shortly. He believes that the wheat will go at least thirty-five bushels to the acre.

## ONE MONTH AGO WANTED TO SELL CROP FOR \$100; IT IS NOW WORTH AT LEAST \$3000

Gift Edge Farmer Thought There Would be Little or No Crop This Year

## WHEAT YIELD WILL BE GOOD

Change in Month Nothing Short of Phenomenal --- Weather Must Continue

"One month ago, I would have sold my entire crop of one hundred and forty-seven acres for one hundred dollars. In fact, I offered it to several parties for that sum and they refused to buy it at any price. We hadn't had rain for a long while; the grain was withering away and wasn't more than a foot high. Offer me three thousand dollars today for the same crop and see how quick I would refuse it. The change has surprised us all in the Gift Edge district, for at one time it appeared that we wouldn't have one quarter of a crop."

This from Mr. W. A. Harris, an extensive grain-grower of the Gift Edge district, who four weeks ago entered the Star office and imparted the discouraging news that the crops in his community were done for, and nothing under the sun could save them. With a smile on his face, he spoke this week of the same crop but in the tone chronicled above.

Rains started in this vicinity the early part of July. Farmers of the Gift Edge district received very little of the moisture which fell. A general rain came later and it was a prevalent belief that the grain in that vicinity was too far gone. It was little more than a foot high and was beginning to turn yellow. The farmers were discouraged. The change since then has been nothing short of phenomenal, and if nothing happens during the next two weeks, the grain-growers of that vicinity will be cutting the largest crop in the history of their district.

A start was made yesterday morning on the cement work from the Star office to the G. T. P. crossing at the station. This walk was but four feet wide and it is now being widened to eight feet.

A cow buffalo was loaded yesterday and will be shipped to Vancouver, where it will be placed in Stanley Park. It is said that several are already in that park.

## GENEROUS PATRONAGE

President L. F. Byrnes, of the Edgerton agricultural society, expresses his thanks for the generous manner in which local businessmen patronized the prize list which his society is getting out.

A report was recently in circulation in Ottawa that in view of the many epidemics there, the government would meet in Toronto or Winnipeg. The change is considered impossible and is not taken seriously.

## HEALTH BOARD TO MAKE NEW ATTEMPT AT ENFORCING HEALTH ACT

Board will Insist on General Clean-up and Offenders Must Pay Full Penalty

## OPEN PRIZES DEALT WITH

H. C. King is New Chairman and P. W. Deveson Succeeds J. H. Dawson

The health board has decided to take drastic steps to clean up the town and at a meeting held on Monday night, when the new chairman, H. C. King, sat for the first time, it was decided to appoint an executive officer to enforce the regulations of the health ordinance.

Complaints were heard which arose out of the fact that much stagnant water is in evidence in the town limits. A resolution, strongly recommending a general cleanup was introduced and passed. Special recommendation was also made in regard to privy pits which must be abandoned at once. Recommendation in this respect will be advertised at a later date.

An interview with the chairman of the board yesterday was to the effect that the health ordinance will be strictly enforced in future, and a cleanup will first start in the business sections. The condemned well on Queen Street will be closed, the pump withdrawn and will only be used for fire purposes.

P. W. Deveson, who was appointed to fill the vacancy made by the resignation of J. H. Dawson, appeared very strongly in favor of better sanitary conditions in the town and it is evident that he will prove a valuable acquisition to the board.

## 20 IOWA FARMERS TOUR ALBERTA WITH VIEW OF BUYING BIG SECTIONS

Pass Through in Company with R. J. Daly and will Return Here Shortly to Investigate Country

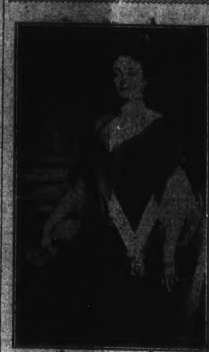

A score or more of prosperous Iowa farmers passed through here on Thursday last in a special car. The party was in charge of R. J. Daly, publicity Commissioner for Alberta, who is located in Winnipeg and was met at the local station by President James and Secretary King of the Wainwright Board of Trade.

The party is in Western Canada with the view of investigating the possibilities for extensive farming and have been west of Edmonton since passing through here. They will also visit the Peace River country before returning here, when, according to Mr. Daly, they will stop off for a day or more and look over the district. Reports from Edmonton state that they are greatly pleased with what they have seen of Alberta and pronounce the virgin soil the best they have seen in the West.

They will probably return here sometime during the latter part of the week and will be piloted around by the board of trade officers.

Per capita, Canada's railway mileage is greater than that of any country in the world.

## FARM WOMEN

H. H. H. The Duchess of Cornwall who will open the International Congress of Farm Women, October 22nd.

## DOCTOR'S WIFE DID NOT PROVE HIM INSANE SO CASE WAS THROWN OUT

Mrs. Keane Lays Charge of Insanity Against Husband and Chauvin Residents Get Something Real New in Line of Entertainment

Keane's interest was in evidence for a short time last week at Chauvin, when the case of Keane vs. Keane was heard before J. P. Toth. The charge, which was laid on July 23rd by Mrs. Keane, against her husband, whom she claimed was insane, was the result of an alleged fit of insanity on that day.

The history of the case is lengthy, but none the less amusing, frequent quarrels between Mrs. Keane and her husband having been reported during the past. Mrs. Keane, who is editor of the Chauvin Advance, secured the services of no less than four doctors a short time ago and had her husband examined. Dr. Little was among those and his verdict was certainly not to the effect that Dr. Keane was mentally unstrung.

The first hearing of the case came up on Tuesday last and was adjourned until Friday so that the defendant could secure counsel. At the hearing on Friday, Mrs. Keane and her daughter testified that Dr. Keane had used drugs for years and that excessive use had driven him insane. S. G. Lewis and D. W. Parsons gave evidence for the defence. The case was dismissed by Justice of the Peace Toth, and as the plaintiff was emerging from the court room, the gathering outside gave three cheers for Dr. Keane.

## WANT LICENSE TRANSFERRED

Application has been made by the new proprietors of the Wainwright Hotel for the consent to transfer to themselves the license, formerly held by Martin L. Foster. Notice of such application appears with this issue.

## SIDEWALKS COMPLETED

The contract for the plank sidewalks which was let to A. Blidau has been completed and it is well to see that the walks have been levelled and placed in proper shape. This work was left until the entire crew could work on it at the same time.

## NO NEED TO APOLOGIZE FOR AGAIN SAYING THAT SEPT. 17TH IS FAIR DAY HERE

Wainwright's first fair will be entirely in the hands of the Farmers

## MANY BENEFITS TO BE DERIVED

Exhibition will Encourage and Foster Agricultural Interests of this Community

It is needless to apologize for again reminding the farmers that Wainwright's first fall fair will be held on September 17th, and that every grain-grower, every farmer, every agriculturist in this vicinity should exert his innermost efforts for the successful outcome of the exhibition.

Officers and directors of the agricultural society, in whose hands the preparations for the fall fair now rest, have sacrificed no small amount of their time to ensure the success of the affair. It cannot be a success unless the assistance of the farmers is given. To the farmer, if to anyone, should the importance of such an event be realized and from the farmer to the directors of the society earnest support and co-operation.

The benefits to be derived from a stock show and exhibition of this nature are numerous. It serves many beneficial ends. In addition to encouraging productiveness, it supports and fosters the interests of the farmers. For the present, and until the town is of appreciable dimensions, the affair is solely in the hands of the farmers, and to them the citizens and other interested parties look for the success of Wainwright's first fall fair.

Every farmer in the district should exhibit something.

## THE STAR OFFERS PRIZE OF \$10 FOR FATTIST BABY IN BUILDING ON FAIR DAY

Not the Prettiest Baby Because Every Baby is the Prettiest in the Mother's Estimation of Their Cherubs

On going to the post office yesterday, the following letter was taken from the Star's letter box.

To the Editor: I think someone ought to suggest a Baby show in September as I notice some fine babies in Wainwright.

W. Smith, Visitor.

"Visitor's" point is well chosen and from the fact that numerous fine babies really are in the town, the Star herewith offers its subscription of \$10 as a special prize for the fattest baby in the agricultural building at a certain hour on September 17th, the date of the fair. Further information will be found in the prize list, which will be out shortly.

## OPEN SEASON FOR DUCKS

The open season for ducks starts August 23rd, and local sports are already polishing their guns for future action on the popular lakes in this vicinity. Licenses may be obtained from Constable Webster at a nominal fee.

Canada has one hundred million square miles of coal bearing lands.

## President of Company Here from Scotland

Mr. John W. Wood, president of the Wood-Wainwright Estate, arrived here yesterday from Newcastle-on-Tyne, Scotland. Mr. Wood is here looking over the holdings of his company, the general manager of which is Mr. Richard Aykroyd. He will remain for a week or more.

## PROBABLE THAT RECORD RUN WILL BE MADE ON TRIP OF INSPECTION OVER THE SYSTEM

Annual Trip of Inspection Being Taken by Officers and Directors

## GO THROUGH TO FITZHUGH

May Stop off Here Long Enough to Trip Out to See Buffalo in National Park

Sometime last night, a special train passed through here with the different officials of the Grand Trunk Pacific, together with the directors. Chairman Smithers of the board of directors was also in the party which proceeded on to Fitzhugh. They started from Winnipeg yesterday morning at 9 o'clock and will proceed on to the mountain division without stopping off.

From Fitzhugh they will work back, visiting the different divisional points with the view to making their annual inspection of the road. It is also thought that a longer stay will be made here so that the newly appointed officials may take a trip to the buffalo park. The last visit of the officials to see the buffalo was made in 1910, when the late Charles M. Hays, who was their president, was also among the number.

It is stated that the time made by the officials from Winnipeg to Fitzhugh will establish a record for the road. It will be made in little more than twenty-four hours, during which time a distance of ten hundred and seventy-seven miles will be covered.

## NEW SETTLERS FROM U. S.

Mrs. A. J. Simmerman, late of Williamsport, Indiana, has arrived here and will reside with her son, Mr. Bud Simmerman, who owns a valuable farm south east of town. She will be followed by her husband, who is now on the road with stock and implements. He purposes locating in these parts.

## EDGERTON'S SECOND FAIR

Through an error the date of Edgerton's fall fair was left out of the list which has appeared in this paper for the past few weeks. Edgerton's fair will be held on September 13th, and prize lists will be out shortly.

## CLEVER COMPOSING

Following advice from Principal McLean of the local school, Miss Jean Waver, who is a daughter of Mrs. Marie Gunyon, residing on a farm north of town, had a song which she composed set to music and the first copies were received by the local stationers last week. The song is entitled, "Waiting at the Old Iron Gate" and local musicians state that it is very pretty. The music was written by M. C. Hanford. Sheets are now on sale in the town.

It is estimated that more than 100 millions of American money is invested in Canada.

## BUFFALO CALVES TO THE NUMBER OF 250 HAVE BEEN BORN THIS YEAR IN THE RESERVE

Entire Herd Now Numbers Upwards of 1200 all of which are Healthy --- Death Rate is on the Decline

## SAID THAT HERD IS BECOMING TAMER

According to Superintendent W. E. D. McTaggart of the Buffalo Park, no less than two hundred and fifty buffalo calves have arrived on the scene this year, which has increased the number of animals in the reserve to almost twelve hundred. The increase in the number of calves over last year is estimated at twenty-five per cent, while the death rate has been remarkably low. During 1911 the death rate as announced by Commissioner Douglas was one quarter of one per cent, which has been reduced this year on account of a better climatic season.

All of the buffalo are in a very healthy condition and are becoming exceedingly tame. In fact, on driving through the park they refuse to move from the trail and make it necessary to drive around them. It is also reported that several have shown their ugly nature of late, which is doubtless due to the fact that the animals are now mating.

## Pleased with Town, Says It's Smart and Wide-Awake Place

Prominent Businessman, Hailing from St. Catharines Greatly Pleased

The town was visited this week by a prominent businessman of the east, in the person of Mr. Charles A. Wilson, of St. Catharines, Ont., who is touring the west with the express purpose of personally sizing up conditions as they really exist. From the fact that Mr. Wilson had heard considerable in Wainwright's favor previous to coming west, he made his visit here of several days duration, leaving on Monday for Saskatoon with a better opinion of the town than before.

While here, Mr. Wilson expressed himself to the effect that Wainwright was one of the real live towns he had visited. "Your town strikes me as a favorable point," said he, "it is one of the smartest centres I have visited and will undoubtedly become much larger in size."

Mr. Wilson is a personal friend of Mayor Pawling and was one of his political opponents in former days, when both resided in St. Catharines. He will return here in the near future.

A cheap and reliable fly poison, which is not dangerous to human life, is a solution of bichloride of potash. Dissolve one dram, which may be bought at any drug store, in two ounces of water; add a little sugar, and place about the house in shallow dishes. Be sure the chemicals are fresh and pure.

"I was cured of diarrhoea by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes M. E. Gohari, Orifio, Pa. There is nothing better. For sale by all dealers.

## LOCALS

WHAT A DIFFERENCE  
A WEEK WILL MAKE

Last week a report appeared in the STAR to the effect that Charlie Brooks had killed 24 birds out of a possible 25 and he was hailed with "Good boy, Charles!" This week, or quite recently, he fell down and killed 14. Now the boys are saluting him with a slight variation. "Good bye, Charles!"

## WANDERED FROM TRAIL

Mr. George Morrow and Mr. E. E. Hinton, of Edgerton, drove into town on Saturday evening, and made good time from Heath to Wainwright, a distance of some twelve miles. They covered the distance in about four hours, which was due to the darkness of the night and their having wandered from the trail.

## THE CEMENT SIDEWALKS

Contractors Walker & Love have completed the sidewalk on the east side of Main Street and yesterday morning started to tear up the plank walk around block 7, preparatory to laying cement around this block.

Mr. H. B. Kirby, of the firm of Norman & Kirby of Saskatoon, was in town yesterday. Mr. Kirby was in town on a business trip and while here was a visitor at the STAR office.

## B. C. FRUIT LANDS

On another page of this paper appears the advertisement of F. L. Harris, who is offering for sale, both small and large tracts of B. C. Fruit Lands. Those interested in such lands should take special notice of this ad.

Mr. W. D. McKay left here this week for Chauvin, where he will work on the hotel at that point which is being erected by M. L. Forster. He was accompanied by Contractor Kaufman.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhoea Remedy the world would be much better off and the percentage of suffering greatly decreased," writes Lindsay Scott, of Temple, Ind. For sale by all dealers.

## WON DIAMOND RINGS

The diamond rings which were offered as prizes on a sort of lottery at the Wainwright Pharmacy were won by S. R. James and Dr. Watson. The rings are valuable ones.

Nothing pays better than good roads. It costs considerable to secure them, but they are the arteries which connect city and country, along which the currents of travel perpetually flow. Bad roads, full of chuck holes kill time, team and temper. Be sure that money thus expended is wisely invested and certain to realize future results.

Won't it be awful the way that the Edmonton Capital and Journal will now display the photograph of Tommy Burns after having trimmed Rickard, the other night? Tommy's popularity is taken down a notch every time his physiognomy appears in print.

"You want a good farm near the railway?" Write to T. H. Saul, Chauvin, Alta.

FOR SALE—East Half Section 5-44-6, W 4th, and East Half Section 17-44-5, W 4th.

FOR SALE—One American-Abell 90-00 Separator in first-class repair. Can be bought at about half-price for cash. Apply at this office.

JOVANNI THINKS BOUT  
WILL BE ARRANGED

Wants to Satisfy Himself as to Whether or not Connell is the Man He Claims

Joe Uvanni, the champion Italian middleweight boxer, is still here and all efforts to arrange a bout with several western pugilists have proved futile. Joe is still of the opinion, however, that he will eventually meet either Connell or one of several others with whom he is now in communication.

Since coming here, Joe has formed many new friends, who recognize in him a clean sport, a gentleman as it were, who does not resemble the ordinary follower of the ring. He is very polished in his manner and has a pleasing disposition which has already been admired by many.

In the event of a satisfactory bout being arranged, the public are guaranteed something better than they have ever seen here before and what's more, his reputation would indicate that he is entirely on the square, which is more than can be said of certain others who have performed here. In trying to arrange a bout with Connell, he hopes to satisfy the public as to whether or not he (Connell) is what is claimed for him.

## PERSONAL

Mr. F. G. Cope, late of London, Eng., arrived here recently to accept a position here with the Union Bank as junior clerk.

The services of the Methodist Church will be in charge of Rev. R. J. Rice, while the pastor is holidaying.

Doug Ferguson, of the STAR staff, is a visitor to Edmonton this week, at the exhibition.

Mrs. W. Small and child left here last week for Edmonton, where Mr. Small has been engaged in certain business transactions for the past two weeks.

MARRIED—On July 31st, at the Presbyterian Manse by Rev. A. Russell, Harold Ford Sparks to Mabel Henderson Hallett, both of Edgerton.

Friends of Mr. and Mrs. C. G. Fieldhouse have received word from Transcona that a baby girl recently arrived at their home in that town.

Miss Clara Orchard, of Portage La Prairie, has been visiting her sister, Mrs. Oliver Rogers, for the past week.

Frank Bateman, who visited Edmonton recently, returned here on Saturday last.

Mr. L. P. Hussey was a recent visitor to the Capital, returning home on Sunday's express.

Mr. McEwen and his sister, Mrs. Mosher, of Lexington, Nebraska, are visiting with their aunt, Mrs. S. J. Covey. Mrs. A. G. Sutherland of Melville, is also visiting Mrs. Covey for a few weeks.

Mr. Harry Callahan, clerk at the Wainwright Hotel, is in Edmonton on a short visit with friends.

Mr. T. G. Cook, of the Imperial Lumber Co., was a business visitor to Edmonton and Mirror last week, returning here on Sunday.

Mrs. Frank Goard, of Vancouver, arrived here on Monday and is visiting her parents, Mr. and Mrs. W. J. Stolt. She is accompanied by her children.

## NOTICE

Applications for the position of Caretaker for the Wainwright School will be received by the School Board up to August 24th.

Information as to Caretaker's duties and salary paid may be obtained from the Sec. Treas. W. T. Barr, Sec. Treas.

WILL DAIRY EXPORTS  
CEASE IN FOUR YEARS

Northwest Drawing Heavily From East And Likely to Continue For Long

According to The Trade Bulletin, Montreal, Mr. R. M. Ballantyne, managing Director of the firm of Lovell & Christmas, predicts the end of Canada's dairy export business within the next four years. He bases this prediction on the fact that for the past few years Canada's dairy exports have fallen off, and that there is every reason to believe that they will continue to do so in the near future. He states further that while Canada's population has been increasing by leaps and bounds, and its spending capacity has also been increasing, its butter and cheese production has not been increasing anywhere near in proportion. He points out further that the internal trade between the east and west is drawing from our export trade and that this will increase until there is some left for foreign trade.

In the same paper, in answer to Mr. Ballantyne, another man seeks to repudiate him by pointing out that the west is no pattern for the future. He predicts, on the contrary, that the Northwest Provinces will eventually become the great producers of butter and cheese, which will be forced upon them by mixed farming. This was increased already.

It is just a question then of how much mixed farming will be done in the Northwest within the next few years. The amount done now is, comparatively speaking, almost nothing, and there is much virgin soil to be broken and used for grain before mixed farming will make much headway.

## COAL IN CANADA

Huge Deposits of the Valuable Mineral in Many Parts of the Great West

Coal is by far the most important product of the Canadian mines, as the value of the yearly output of coal and lignite reaches about 10 per cent. of the total value of the country's mineral production.

Coal is abundant and extensively worked on both the Atlantic and Pacific coasts, and its occurrence greatly facilitates overseas trade and local traffic on both oceans.

Canada's production of coal in 1908 reached nearly 11,000,000 tons; whereas in 1898 it was only slightly over 2,000,000 tons. This is a very significant fact, for to a great extent, the consumption and production of coal furnished a measure by which to judge of the development of a country. In this connection it must be remembered that the coal trade of Canada is almost entirely a matter of domestic production.

In British Columbia, extensive coalfields are found and worked on Vancouver Island, also in the interior of the province, or the Nicola valley, as well as in the Crow's Nest region, East Kootenay. All these coals are of high grade, and of high quality are known in the Queen Charlotte Islands, in the Skeena region, and in the Similkameen district. These constitute valuable reserves.

In Alberta, there are also vast deposits of fossil fuels of all quantities, from anthracite—which is extensively worked on Banff—to lignite. High grade bituminous coals occur along the lines of the Crow's Nest Railway; along the main line of the Canadian Pacific Railway. Good lignites are of very widespread occurrence, and there are very extensive areas of yet untouched coalfields all along the eastern slope of the Rocky Mountains.

In the southeastern part of Saskatchewan, the deposits of lignite in the Souris River region are being actively worked.

In the provinces of Ontario and Quebec there are no known coal-bearing rocks, and the greater part of the coal consumed in those provinces is imported from the United States.

From the Nova Scotia fields is produced about three-fifths of Canada's total coal production. The main centres of production are in Cape Breton, in Cumberland, in Pictou and in Inverness counties, in all of which are very extensive coalfields.

In 1903, the total Canadian production of 11,000,000 tons Nova Scotia contributed 5,440,000 tons.

## USE OF WATERGLASS

Of the many ways of preserving eggs there is none that can be so strongly recommended as by means of waterglass, or soluble silicate of soda. The disadvantages of the lime, salt and water method is that while it preserves the contents in excellent condition, it makes the shells tough and very brittle, reducing their market value considerably. With the waterglass there is no such disadvantage, since it does not affect the shells in any way. Waterglass can be obtained from almost any chemist's shop, and as a rule sellers enclose directions with each sample, regarding the correct amount of water to be added. Sometimes it is five times as much by bulk or by weight, sometimes ten times, sometimes twelve. The eggs which should be fresh, clean, and, if possible, infertile, should be placed in a glazed vessel, and the waterglass poured over them. Care must be taken that the eggs are entirely submerged. For the benefit of those who know little of the process we may add that the use of waterglass for storing has long ago passed beyond the age of experiment. It is recognized as the best method for use at a time of scarcity.

Mr. W. S. Gonsalus, a farmer living near Fleming, Pa. says he has used Chamberlain's Colic, Cholera and Diarrhoea Remedy in his family for fourteen years, and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by all dealers.

Subscription \$1.00 a Year in Advance.

Consistent advertising value in the Wainwright Star can be obtained on verified applications. These prices personally vary with variations of contract. Some date rates are charged, where no contract is made.

Legal and business notices, and insertion in the Star, each charged separately. The Star is published at 1000 Main Street, Wainwright, Alberta.

NORMAN E. COOK,

Manager and Editor

WAINWRIGHT, ALTA., WEDNESDAY, AUGUST 14 1913

## OUR FIRST FALL FAIR

September 17th is not so very far distant and interest in the events of that day should still be kept at a high tension. Wainwright's first fall fair promises to be one of exceedingly great moment and importance to farmers in this vicinity. Its benefits should be many and it is well to see that it is being considered in this light by the majority of farmers.

The best in every line of farming will be placed on show and the result should be one of profit to the community as a whole. Prizes of a very generous nature are offered and have been selected. The fact of the matter really is that better and bigger prizes are offered than at any fair in any Western town. Businessmen are confident that the results which will accrue will do much for the town, for that reason they have contributed very generously to the prize list.

Prize lists will be out shortly and every farmer should procure one and ascertain just what articles or articles it would pay him to exhibit. Every branch of farming is covered and the long list of special prizes should appeal to the progressive farmer and agriculturalist. The list should prove of especial interest to the mixed farmer.

## THE CROP PROSPECTS

It is now conceded that the dry spell which was experienced in these parts during the month of June will make little difference with the year's grain yield and that the harvest will be much larger than was originally anticipated. An early harvest will result and cutting should be general before the end of the month.

All along it has been evident that the straw would be short and even yet there is no doubt of the fact that it will be shorter than last year. This will naturally ensure easier handling by the farmers with practically no diminution in the yield. It is further conceded that it is far better to have an early crop and a good yield than a big yield and a frozen granary of grain.

Unless something unforeseen happens this year's crop will be a record one. Reports from every section of the district are very encouraging.

It cannot be said that Wainwright property is booming; but inside stuff is selling rapidly to those who believe that Wainwright has a bright and promising future. This year's development should make some difference and the majority look forward to prosperous times.

So far as business structures are concerned, this year's operations mark more than twice the progress of the past two years. Strides of this nature indicate that the country is growing and the district filling up. The business of the community is gradually growing.

What with flies, mosquitoes and numerous other pests, the residents of this section of the country are being tormented woefully. Mosquitoes are prevalent in myriads and great is the aggravation which ensues. A long drive will prove just how much they can torment one.

## A FEW FLY POINTERS

Readers of the Star last week no doubt recognized the entirely sane argument which ran through the article written on the pesky and deadly fly by Dr. W. A. Watson. Citizens should do all they can to eliminate them.

A fly in the house is as dangerous as a rattlesnake, as filthy as a louse, as disgraceful as a bed-bug. The time will come when any modern, cleanly home will feel itself shamed and disgraced by the presence of a fly and every householder upon whose premises a brood of flies is found will be heavily fined or sent to jail.

Many methods there are to destroy these dangerous disease carriers. In the first place, prevention should be taken to keep them from the home. Once within the home, they should be destroyed with all diligence and haste. They are not only dangerous, but are admittedly deadly.

## THE FOURTH ESTATE

"The Fourth Estate" is a phrase used to denote the press. Had it been coined by less eminent lips it might have passed into the category of slang, but, as it is, it has survived for more than a century. In the olden days, when the germs of constitutional government had begun to bear fruit, it was customary to make legislative bodies representatives of three classes, the first, second and third estates, viz. the nobles, the clergy and the masses, or, as in England, the lords, temporal and spiritual, and the commons.

"When the press began to wield power commensurate with that of the three original states, it began to be familiarly known as 'the fourth estate', Edmund Burke, the man whose 'Speech on Conciliation' is read in every high school, is generally given credit for the authorship of the expression."—Washington Post.

Melville is advertising for a police chief and for one who won't use the funds of the town for his own personal benefit. Incidentally we might say that all towns in western Canada are after honest men at the head of the police department. Wainwright is also seeking a new police chief.

Vegreville has decided to expend \$24,000 in the effort to secure natural gas. A large amount of money to be sure, but in the event of their efforts being crowned with success, it will be worth a thousand times such an amount to the town. To advise that the same amount of money be spent here should only be done on the spur of the moment for it might be regretted.

It is needless to again report that the crop is the best yet. And from almost every section of Alberta the same reports are being sent out. Before a final estimate of the harvest is made several weeks must be awaited and many changes might take place in that time.

If present weather conditions continue, Western Canada will require at least 50,000 men to harvest this year's crop.

John Arthur Johnson, father day, within the ring of the rope, you put poor Jimmie Flynn away and spoiled our latest TO JOHN hope. And yet your triumph was no real virtue. In it lies instead of swatting men like Flynn, why don't you swat the flies? You showed how deftly you can spoil a beaming human being, but who's the better for your toil, O self-complacent pug? You're waxing old, you should begin to do some labors wise; instead of swatting men like Flynn, you ought to swat the flies. You slammed Flynn's head and made it sound much like a muffled drum; you labored and you pranced around and punched him out of plumb; you smote his larynx and his chin, you biffed him in the eyes; but better far than swatting Flynn, it were to swat the flies. Down where Las Vegas broods and moans you cooked a young man's goose: "I took in thirty thousand bones," you say, as an excuse. But there are better things than gin, for which your bosom sighs; why wait a helpless cliche like Flynn when you can swat the flies? John Arthur, quit your vain career, which makes all good men sick; cut out the Hollands and the beer and buy a swatting stick. Brace up and spring your golden grin and win a nobler prize than is the scalp of Jimmie Flynn—go forth and swat the flies.

WALT MASON

**THE WISE MAN** Does not buy his lumber on the basis of price only. He realizes that it is not so much what he pays, but what he gets for what he pays, that counts.

As one of our customers remarked the other day the first cost is not the last cost.

There are many "books" in the lumber business, we have none baited. In no other line, perhaps, do you rely so strongly on the honesty of the dealer.

Ask our customers what sort of treatment they get at this yard.

## NEWSY ITEMS OF WHAT IS DONE AT POINTS ON THE G. T. P.

The locomotive used on the new Regina night service of the Grand Trunk Pacific from Winnipeg is of the already famous G. T. P. eleven hundred class, built for speed, power and safety. It has eight wheels, each of them seven feet high and is capable of hauling a heavy train at the rate of 30 miles an hour although on actual service never more than 50 or sixty miles is developed.

Mr. F. F. MacArthur, sales manager of the Transcontinental Townsites Co. announces that by September a Grand Trunk Pacific townsite located between Fort George and Pete Jaime Cade will be placed on the market; also that two other townsites will be marketed for the G. T. P. early next year; one on the Nechago River and the other on the Nechago, west of Fort George. Mr. MacArthur expects that the Indian Reserve at the Fort recently acquired by the G. T. P. will be platted and ready for sale during 1913.

Route maps of the new Grand Trunk line from Fort Burwell to London have been presented for approval by Mr. W. H. Biggar, K.C., the company's solicitor, to the town council of Aylmer, Ont. Immediate construction of this is planned which will pass through the towns of Clinton, Aylmer, Belmont, Mapleton and London. It is understood that the G. T. P. line ferries in the course of construction for the carrying of loaded coal cars across Lake Erie. The road is surveyed for its entire length.

According to an Order in Council just passed by the Ontario Government prospecting along the line of the National Transcontinental Railway in that Province is to be permitted within a strip half a mile wide on each side of the line.

In the German Reichstag are 36 editors, 4 master printers, three publishers and one compositor.

Lord Strathearn, Canada's grand old man, drove the last spike on the C. P. R., Nov. 7th, 1885.

## LOCAL TEAM LOST BOTH ENDS OF THE PURSE IN TOURNAMENT AT HARDISTY

First Game with Hardisty was Good Ball - Bassano Boy Twirled for Winners

### SECOND GAME SLIPPED AWAY

Second Money Captured by Sedgewick - Local Team Made Many Errors

Wainwright lost both ends of the purse at Hardisty on Thursday last, first losing to Hardisty by a score of 0-1 and in the second match with Sedgewick, 4-2.

Little comment on the game is necessary, except to say that the boys were away off in both games and especially in the second which was full of errors. With Hardisty such a result was expected, for it was known before-hand that they would be "loaded" to the teeth. Hayes, pitcher for the Bassano team, did the twirling for Hardisty and he is recognized as the best man in the Western League. From the fact that he has signed up with Cincinnati for next year, it was little wonder that the showing was poor. The other end of the battery was Bassano's as well.

With Sedgewick it was different. The game was practically thrown away, for errors were numerous and frequent. Especially was this true of such heavyweights as Wincholt, Woods and Renwick, Lewis and Livingstone being about the only men who played the

## ACCORDING TO 'CAPITAL' BURNS IS ENTITLED TO HOLD BELT

According to the following which appeared under the "photograph" of Burns in the issue of the Edmonton Capital the day of his fight with Rickard in Saskatoon, Tommy is now entitled to hold the title of the world's heavyweight championship.

"Can he come back? The bout at Saskatoon tonight will determine whether or not Burns is now entitled to hold title of world's heavyweight champion in the event of the retirement of the 'Big Smoke'." Few will take this as proof sufficient for the assumption.

The English suffragettes are getting into the limelight again and heavy sentences of late have been imposed on several of the most militant.

A by-law recently submitted in Saskatoon for the prohibition of an agreement between the city and the Quaker Oats Co. for the establishment of a mill there resulted in 710 for and 34 against.

Canada's first steam railway was built from La Prairie to St. John in 1836.

game up to any kind of form. That the local aggregation is made up of poor batters is very clearly evident, for very few hits were made. Pawling in outfield had little work to do and played a steady game.

Hardisty was awarded first money of \$100 and Sedgewick carried home the \$50 prize money. It was a day of sweet revenge for Hardisty, and well they knew how to rub it in.

FARMERS are advised to get their Barns fitted with B. T. Hay Carriers, Horse Feeds, Slings, Pulleys, Litter Carriers, and Sanitary Stalls

## FROM WHEAT GROWING TO DIVERSIFIED FARMING

A Change is Generally Taking Place in Agriculture in Many Western Districts

Western towns and cities have the money and the brain, and the country and location, which should be an adequate combination in working out a successful plan for the encouragement of industries. They already realize that the factory must go hand in hand with agriculture for permanent development. Difficulties there always are in working out his problems, but these are never insurmountable where there is brain.

Dairy Produce and Stock The line of agriculture that best fits into industrial life is mixed farming which supplies the necessary produce for the home market. Though wheat absorbs the attention of the farming community, the urban population takes much of dairying and stock raising, and farmers are beginning to feel the influence in that direction. Farmers can make money more easily out of wheat, but the time is passing when they will find it quite as profitable in fact more profitable in the long run to turn part of their vast acres to mixed farming. It is so easy now as it used to be to find a farmer who has neither a cow or a hen, but their name is still legion. Many farmers in Indian Head district buy their butter, the local supply being scarcely sufficient for the town. Wainwright is doing its best to increase the supply of dairy products in that district. One farmer in that section works only 107 acres, but it is said he is making more money out of mixed farming than many of the farmers who are working half-sections. Gravel, like numerous other towns, uses a huge quantity of condensed milk. One merchant estimates his sale last year at 12,000 quarts.

Established Creameries

A creamery recently established at Elkhorne has increased the price of cattle, thus mixed farming in that district has reacted on the market. Widen is just starting a creamery. Farmers in Broadview section are taking up the hog industry. Sinalua is encouraging mixed farming. Qu Appelle has a creamery which found a ready market in the West. Eyebrow uses condensed milk, and the local importer imports his cattle. Outlook imports its meat, butter, eggs and milk, as there is practically no supply locally. West exports little or no dairy produce. Though Mortlach shipped 1,500,000 bushels of wheat last year, there was no dairy produce sent out. Ten miles north of Herbert a farmer planted 40 acres of potatoes last year and his returns were so great that he taught at his neighbors who grow wheat a farmer south of Herbert brought into town last year a turnip weighing 28 1/2 pounds. Mixed farming has gone far enough to supply the local demand the year round for eggs, milk and butter. Instances might be multiplied to show the opportunity there is for mixed farming and also to show that in most districts it could be carried on profitably.

### MILK AND BUTTER

Winnipeg, Alone Imports a Million Dollars Worth Annually From the States

"Winnipeg is paying from \$1,000,000 to \$1,200,000 a day for milk from Minneapolis and St. Paul."

The statement by the Hon. George Lawrence, Minister of Agriculture, is an indication of the great possibilities there are in rural Manitoba, for mixed farming. Another estimate places the value of cream, butter and milk imported by Winnipeg at over a million dollars a year, or twenty thousand dollars a week. This opportunity for dairying has been recognized by prominent men of Winnipeg, who have formed what is known as the "Million for Manitoba" League, whose aim is to bring the population of Manitoba up to one million. The present population is four hundred and sixty thousand, which means that if the object of the league is realized, over five hundred thousand additional settlers will be brought into the province, chiefly for agricultural pursuits. The Provincial Government also recognizes the necessity of encouraging mixed farming, particularly stock raising and dairying.

### RISE OF THE CREAMERY

Springing up at Innumerable Points in the West

The movement in Western Canada towards mixed farming is, already, very pronounced, and is seen in the springing up of creameries at various points. In fact, several local municipalities have established creameries through the enterprise of prominent citizens for the very purpose of encouraging the farmer to keep cows. This movement is further reflected in the great activity in various sections in wire fencing. It is not uncommon sight to see prairie sections or half sections divided into fields by wire fences, so that cattle, at pasture, may be properly herded. Perhaps the poultry industry has made greater strides on the prairie farm than dairying. There are still many towns where the local demand for fowl is not met by the surrounding community, and there are few places that ship to Winnipeg or coast cities.

Winston Churchill, England's first Lord of admiralty is coming to Canada next month and may take a trip through the west.

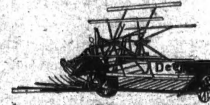

Philadelphia has recently appointed an official mosquito slayer with the title of diptologist.

# One Dollar Down AND one dollar per week

For five years pays for an improved fruit tract in B.C. At the end of the five years it should bring you in \$500 to \$1,500 per year.

## Actual Government Reports for the Kootenay Lakes District Show Greater Results from ONE ACRE

There is hardly a man, woman or child in the United States or Canada who cannot afford One Dollar Per Week to establish a home in an ideal country like the famous Kootenay Lake District. In five years a clear title to one acre of improved bearing orchard is delivered to you on your heirs. I have set aside five hundred acres of choice fruit land, and as soon as I have sold that out your opportunity is lost. I want every man, woman or child who reads this ad to send in their dollar at once and secure an acre tract on the above terms. Write for full particulars of the best offer ever made to those who wish a home in an ideal climate, where you will have honest and congenial neighbors. I sell five, ten and twenty acre tracts on very easy monthly payments and see the country for yourself. July 26 and August 30 are my next two dates. A big bunch went on June 27—all bought from me except two. Pretty good evidence that what I am offering is right, isn't it? I have sold to several hundred people since January 1st. I live there myself. Have my own fruit ranch on the shores of the beautiful Kootenay Lake. I want you for my neighbor in B.C. and I am sure you will want to be when you see the country. My new way to grow apples will interest you. Also the famous Kootenay Magazine tells us all about the fruit and other industries of Southern B.C. Subscription price, \$2.50 per year, or sent free for year on receipt of twenty names of friends or relatives who might be interested in B.C. fruit lands. My booklet, "Homecoming" tells you how I spent five years in the West looking for what we all want—an ideal location for a home. It's free. Write today, giving name of reliable reference, your nationality, and amount you wish to buy.

### LODGE NOTICES

#### The Knights of Pythias

WAINWRIGHT LODGE, No. 45, I.O.O.F. Meets every Monday at 8 p.m. in the Wainwright Hall. Visiting brethren cordially invited to attend. W. J. McLean, W. M.

When anger gets the better of reason the devil has an open gate and makes haste to blind his prisoner.

Pessimism is essentially morbid, diseased and unhealthy—a nightmare begotten of melancholy and fear.

The first Catholic Church in Canada was established in 1608 at Port Royal.

### IT'S A NEW GAME BUT FEW PLAY IT

Ha! Ha-a-a! Say have you caught on to the new game called "Tickling the Editor?" You take an ordinary sheet of writing paper on which you pen a few words suitable to the occasion. Next, carefully fold it, enclosing a check or money order sufficiently large for a subscription, and hand or send it to the publisher. Keep your eye on him, and if a smile adorns his face it's your game. Now is the time to work this amusing stunt. Scott Herald.

### ONE ON THE DEVIL

In his younger days, while filling the humble position of a printer's "devil," Horace Greely was sedulously courting the minister's daughter. Her father did not look with favor on the young man's attention. One day, however, the good man was inadvertently aroused and invited the future editor to come to church the next Sabbath, as he felt sure that sermon would be of special interest to him. Sunday morning found young Horace dressed in his best, seated in a pew beside the fair object of his devotion. Scarcely time came, and his dismay may be imagined when the minister, looking straight at him, impressively announced his text, "Lo, my daughter is being grievously tormented by a devil." Lippincott's.

Providence throws lavish gifts among us and men sweat and struggle for them, never thinking that he who takes more than he can use will surely abuse the surplus or find it a burden hard to bear.

When anger gets the better of reason the devil has an open gate and makes haste to blind his prisoner.

Pessimism is essentially morbid, diseased and unhealthy—a nightmare begotten of melancholy and fear.

The first Catholic Church in Canada was established in 1608 at Port Royal.

### LIQUOR LICENSE ORDINANCE

Edgerton.

WANTED—Teacher wanted for Sydenham School, 24 mi. north of Wainwright. Salary \$50 per month. Apply to W. S. Downar.

### Synopsis of Canadian North-west Land Regulations.

A person who is the sole head of a family or who has over 16 years of age, and is a Canadian born or naturalized subject of the Dominion of Canada, may apply for a homestead in the Northwest Territories. The applicant must appear in person at any agency or certain conditions by father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a 64-acre section alongside his homestead. Price \$200 per acre. Bidders must reside six months in each of four years from date of homestead entry, including the time required to meet homestead patent and cultivate fifty acres extra. A homesteader who has exhausted his home land right and cannot obtain a pre-emption may take a pre-empted homestead in certain districts. Price \$200 per acre. Bidders must reside six months in each of four years, cultivate fifty acres and erect a house within five years.

W. W. COYR,  
Deputy of the Minister of the Interior.

The Best in the West

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlain's Liniment twice a day and massage the parts thoroughly at each application, and you will get quick relief. For sale by all dealers.

Canada has the most extensive fisheries in the world which are growing annually.

**85 BUSHELS TO THE ACRE**  
The number of kernels on a head of barley is taken as the number of bushels yield to the acre. P. D. Laird has a large tract seeded in barley on his farm at Boxter Lake and not less than eighty-four kernels have been counted repeatedly by him.

Canada supplies Great Britain with eighty per cent. of her entire cheese imports.

**IS NOW IN TRAINING**  
Joe Uvanni, who is here awaiting a bout with some western middleweight, has started training. He is doing a little bag punching at the rink and does road work for about two or three hours every morning.

A woman of Philadelphia was bitten last week by a mosquito from the results of which she died. Gangrene set in.

## LOCALS

**WON TENNIS MATCHES**  
H. G. Morrison, manager of the Merchants Bank here, has been participating in the Provincial tennis tournament at Calgary and has won distinction therein. On Monday, he defeated F. E. Bradburn in the open singles, the scores being 6-3, 5-7 and 6-4. —Daysland Press.

**ATTENDED BALL GAME**  
Among those who went to Hardisty by auto to witness the ball game on Thursday last were, Mayor Pawling, W. J. Musson, G. L. Gregson, Harry McNaughton, R. A. Snyder, V. E. Graham, W. E. Mills, G. L. Hudson, A. E. Mills and H. W. McLeod.

**ARTISTIC SIGN PAINTING**  
Some very artistic sign lettering has been done of late on the windows of the Merchants Bank, the Club Barber Shop and H. C. King's Jewellery store.

Mrs. Reid is attending the Edmonton exhibition in company with her daughter, Miss Pearl. They will return on Saturday.

Mr. George Kendall, one of the partners in the company which owns the Park Hotel, was here this week. He is a prominent businessman of Winnipeg.

Miss Sketch, who has been visiting Mrs. McPherson for a short time, will leave for Edmonton today. She will attend the exhibition, after which she will return to High River.

Mr. A. F. Kohl left here yesterday afternoon for Cleveland, Ohio, after a very successful year's operation on his farm north of town. Mr. Kohl came this way in the early spring and stayed with his holdings until he has one of the finest quarter sections in this part of the country.

Mr. V. E. Graham is a visitor in Edmonton this week on business, and incidentally is attending the exhibition being held there.

Mrs. G. T. Lally expects to leave for the exhibition this afternoon.

Reports from Ottawa state that the government is already making preparation to have cheap railway rates on grain to the south secured early in the season. This is a wise move on the part of the government and one which is greatly needed in the west. There is certain to be another railway blockade this year and congestion at Fort William as well. —Grain Growers' Guide.

At the present rate of construction, the G. T. P. from Winnipeg to Prince Rupert will be completed and in operation by the end of 1914.

The motto of the mail order house is every man for himself and the devil take the hindmost. The spirit never fails to work.
